<p data-bbox="140 645 261 678">WACK3M</p>	 A photograph of a custom-built LEGO Mindstorms EV3 robot. The robot is constructed using a combination of black and red Technic beams and connectors. It features a central white EV3 brick with a camera lens on top. Two large black wheels are mounted on the front, and a smaller black wheel is on the back. The robot is equipped with various sensors and actuators, including a touch sensor and a motor. The entire assembly is shown against a plain grey background.
